REUNION - Urban Solar Energy Association (USEA)

A reunion of pioneering visionaries from the Boston area, who 40 years ago (1980-1985) created the largest grassroots solar energy organization in America, with hundreds of members, many of whom have gone on to do amazing things in renewable energy and climate sustainability.

USEA had 800 members. All are invited. And friends.

- What would you like to happen at the Reunion? What's your agenda?
- What have you done in the last forty years?
- What have we learned about energy and environmental advocacy?
- Media coverage? Greetings from Sen. Markey?
- Other topics? Next steps?
